## THE PLANET URANUS.

Some Interesting Things a Voyage to the  
Largest World Would Disclose.

If Uranus, which is a star of about  
the sixth magnitude, were a planet like  
those little ones called asteroids, which  
are being discovered by the dozen every  
year, it could not have much claim upon  
popular attention. But Uranus is really  
a gigantic world, more than 80 times  
as large as our earth. Its vast distance, now  
about 1,700,000,000 miles from the  
earth, is what causes it to look so small.  
Uranus has four moons, which revolve  
backward in their orbits—that is to say,  
they revolve from east to west around  
Uranus, while Uranus goes like all the  
other planets, from west to east around  
the sun. It is believed that Uranus ro-  
tates backward on its axis also. More-  
over, the axis of that great, strange  
globe lies in such a direction that in  
the course of its year, which is equal to  
84 of our years, the sun shines almost  
perpendicularly first upon one pole and  
then upon the other. Measured by our  
time standard, there are 40 years of con-  
stant daylight, followed by 40 years of  
unbroken night, around the poles of  
Uranus. And the sun rises in the west  
and sets in the east there. But the sun  
looks very small when viewed from  
Uranus—only one four-hundredth as  
large as it appears to us. Still it sheds  
upon that planet 1,500 times as much  
light as the full moon sends to the  
earth, so that daylight upon Uranus,  
while faint compared with the blaze of  
a terrestrial noonday, is nevertheless a  
very respectable kind of illumination.

It is a pity that the telescope is able  
to show us very little of the detail of  
the surface of Uranus. Some faint bands  
or belts, just visible with the most pow-  
erful instruments, are all that can be  
made out. If we could visit Uranus, we  
should probably be greatly surprised, if  
not greatly disappointed. Its average  
density is but a trifle in excess of that  
of water, and of course its surface den-  
sity is far less.

A voyager from the earth landing on  
Uranus would probably sink almost as  
rapidly as if he had leaped upon one  
of those round white, thunderclouds  
which, piled high in air, look so solid  
and snowy cool on a July afternoon. He  
could no more walk on the surface of  
that world than he could walk on water.

It has generally been assumed that  
the meaning of the slight density of  
Uranus is that that planet is still in a  
vaporous or liquid condition and ex-  
ceedingly hot perhaps. If so, it may in  
the course of future ages contract and  
condense and cool until it comes into a  
condition resembling the earth's. Will  
vital forces then become active upon it  
and produce a long succession of living  
creatures, brightening its dim daylight  
with the color of flowers and the cease-  
less activity of animate existence? It is  
not likely that man will ever be able to  
answer that question, but who that  
looks upon Uranus keeping step with  
the earth to the music of the sun can  
help asking it?—Garrett P. Serviss in  
New York Sun.

## Jangling Piano Strings.

Another case occurred in a house  
where I was once stopping in Nova  
Scotia. A piano with a bad note was  
fixed by simply opening an inside shut-  
ter of a bay window at the opposite side  
of a parlor from the piano. The latch of  
one shutter was lightly resting against  
the edge of another and caused the jang-  
le when one particular note was struck.  
The lady player had previously declared  
that she would send for a tuner the next  
day and laughed at my attempt to fix it  
by hunting about the room while she  
pounded. However, she did not conceal  
her surprise when the trouble was re-  
moved and admitted that there was  
something about this sound business  
that she did not quite understand.

In regard to locating these jangles,  
however, I will say that it is not always  
so easy. It requires some practice before  
the ear becomes capable of locating with  
any degree of success the direction of  
sounds of this kind. This was my ex-  
perience with the first piano jangle,  
that of the cracked globe, which was  
quite difficult. That of the window  
shutter was easier as well as many others  
which I have located since. A cor-  
rect musical ear is also an important  
adjunct in the case.—A. A. Knudson in  
Popular Science Monthly.

## Children Cry for Pitcher's Castoria.

The Mother's Tendency.  
"Poor Tommy is in disgrace," said  
Mrs. Figg to the friend of the family  
who had dropped in. "I have just had  
to give him a whipping. You can have  
no idea how much I hate to do such a  
thing. I am so tender hearted."

"I wish," sobbed Tommy, "that you  
was tender hearted 'stead of tender  
hearted."—Indianapolis Journal.

Shoes and other articles besides bas-  
kets and cabinets are manufactured from  
birch bark by the Russian peasantry.  
The bark from which these articles are  
made is from the inner skin of the Rus-  
sian birch tree, common in almost all  
parts of the empire. It is gathered  
spring and fall, and the process is a very  
simple one. An incision is first made  
around the trunk of the tree, and the  
peasants have a knack of tearing or un-  
winding the bark from the starting  
point, which gives them a strip of even  
width that they wind into a ball and  
keep through the winter until it is dry  
enough to use. It is then made into  
shoes, baskets and other useful articles.  
The barks shoes are universally worn  
by the Russian peasantry. Other shoes  
used in winter are made of sheep's wool.  
These are manufactured by itinerant  
cobblers who travel from house to house,  
using the peasants' own materials.—  
Philadelphia Ledger.

SOZODONT the ladies pride,  
Only rivals it deride.  
Ephrys of flower laden air,  
Only with it can compare,  
Doing good to everything,  
On every side its praises ring;  
Neglect to use it, ladies won't,  
They all must have their Sozodont.

WEDNESDAY, JUNE 13, 1894.

## THE OREGON ELECTION.

Returns from twenty-five counties in Oregon and incomplete returns from the remaining seven counties give Lord, Republican, 40,039 votes; Pierce, Populist, 25,451 votes; Galloway, Democrat, 16,576 votes, and Kennedy, Prohibitionist, 1,926 votes. Hermann, Republican, in the First District, and Ellis, Republican, in the Second District, are elected by pluralities of over 9,000 each.

In the June election in 1892 the Populist vote for Congressmen was 13,458. This year it will be very nearly double that number.

The Portland *Oregonian*, the organ of the corporations and the leading Republican newspaper of the State, declares:

A vote for the Republican ticket is a vote against Populism; and it is a vote, on all main financial and economic issues, for the Cleveland Administration, against which Populism is as much at war as against the Republican party itself.

President Cleveland is indebted for the success of his efforts to uphold the national credit and to keep the country on a sound monetary basis to the earnest and disinterested co-operation of Republicans in Congress. Since Republicans can and do co-operate with the Administration at Washington, Administration Democrats can co-operate with Republicans in Oregon in affairs where the issues are precisely similar and where the opposition is of the same quality.

Between Republicans and Administration Democrats, though there are differences, yet on main questions there is a common ground, and it is their common duty to occupy it.

The goldbug press and midwinter orators of Nevada attempt to make it appear that Populism and Clevelandism are synonyms. They assume that their readers and hearers are ignorant of the fact that the Republicans in Congress sustain the financial policy of Mr. Cleveland. They imagine that the people do not know that the Republicans voted to repeal the Sherman act and to sustain the President's veto of the Seigniorage bill. Unlike the *Oregonian*, which does not dissimble, they pretend to favor free coinage, while supporting a party that is against it, and grossly misrepresent the purposes of the Silver party, which insists on the free coinage of silver as an indispensable step toward monetary reform, which alone will restore prosperity to the country.

The Republican plurality in Oregon, according to the leading Republican paper of the State, is simply an indictment of the financial policy of Cleveland's Administration.

## POPULIST PROTECTIONISTS.

The Populists are taking a hand in the tariff game which is now being played in the United States Senate. Peffer of Kansas, who has been represented by the goldbug press of Nevada as an out-and-out free trader, offers an amendment to the wool schedule, transferring wool to the dutiable list and restoring the McKinley classification, but scaling down the rates to about one-half.

It is possible that the amendment may be adopted, though it is not satisfactory to a majority of either of the old parties. The Democrats, who want to protect sugar, want wool on the free list, and the Republicans, who want sugar on the free list, desire a high tariff on wool. Peffer, who is not affiliated with either of the old parties, wants wool dutiable to the extent of six cents per pound on clothing wool, such as is produced in Nevada. That is about half-way between the two extremes of excessive protection and free trade.

In justice to those engaged in wool growing, wool should not be put on the free list without giving them opportunity to adjust their business to the new condition. At present Nevada wool, unwashed, is protected by a duty of twelve cents per pound. This is several cents per pound more than the market price of wool in San Francisco, yet if the tariff was abolished altogether, as proposed by the Wilson bill, it would doubtless be cheaper. If the Peffer amendment prevails it would afford six cents per pound protection to American woolgrowers, and, perhaps, when silver is remonetized and more money put in circulation, increase the price of wool to that extent.

## FOUND A MARE'S NEST.

The Carson *News* has found a mare's nest, and cackles loudly and shrilly over the discovery. It finds in two newspaper guides or directories that the Reno *JOURNAL*, which shouts for the free and unlimited coinage of silver, as well as the *Silver State*, the *White Pine News* and the *Elko Independent* are represented in the directories as being Democratic papers.

This is the most astonishing discovery of the age, from a goldbug standpoint, but to ordinary mortals it only shows the unreliability of the directories which the *News* has been consulting. There are newspaper directories in which the Carson *News* is not mentioned and in which the *JOURNAL* is classed as a Republican paper, yet the *News* will admit that it exists, notwithstanding the mistake of the compilers. Classifying the *News* as a Silver paper in a directory would not make it such while it supports the party which follows the leadership of John Sherman; nor does it make the *JOURNAL*, *Silver State* and *Independent* goldbug papers, as the *News* is doubtless aware of, to classify them as Democratic.

## CONGRESSIONAL PROCEEDINGS.

## The Tariff Bill Almost Shelved.

WASHINGTON, June 12.—In the Senate to-day Peffer offered an amendment to the wool schedule of the tariff bill, transferring wool, the hair of the camel, goat, alpaca and like animals to the dutiable list, restoring the McKinley bill classification but scaling down the rates practically one-half. Under agreement the Senate went back to paragraph 98, imposing a duty of 40 per cent on spectacles and other optical instruments. Hagar moved to increase the rate to 60 per cent, the present rate, and spoke in advocacy of the amendment.

This afternoon, when only a few Senators were present, Mitchell of Oregon moved to indefinitely postpone the tariff bill. Senators hurried from every corner of the building and the motion was defeated—22 to 25.

The time of the House was taken up until nearly 2 o'clock with filibustering upon the bill making an appropriation for the maintenance of a home for aged and infirm colored people of the District of Columbia. It was finally passed and the Indian appropriation bill was taken up.

## THE COAL STRIKE.

The Compromise Not Entirely Satisfactory.

PITTSBURG, June 12.—The settlement of the coal strike was received with great satisfaction generally, although some operators and miners are not pleased with the compromise. Friendly operators have already begun preparations to resume. Organizer Harris says the miners regard the strike as unsuccessful. President Deb's speech was enthusiastically received by the delegates. He attacked Carnegie, Frick and George M. Pullman, charging them with hypocrisy and pharisaical fraud. Their business, he declared, was to rob and degrade workingmen and women. The convention, he announced, would consider the Pullman strike.

## ACONITE FOR ALCOHOL.

A Mistake Which Caused Two Deaths. SELMA, Ala., June 12.—Sid Fowles, David Johnson and Fred Jones started out from this city on a fishing trip. They carried with them as they thought a demijohn of alcohol. They stopped at the house of Paul Frazier just to sample the contents of the demijohn. One man who took a drink died in a few minutes.

Johnson then gave his supposed alcohol to his companions to show that the man died from some other cause, but not liking the taste they both spat it out. Johnson then took a swallow himself and in ten minutes he was dead.

It turned out that the fluid was secured through mistake and that aconite had been placed in the jug instead of alcohol.

## A. O. U. W.

The Supreme Lodge Opens Its Session. SAN FRANCISCO, June 12.—The session of the Supreme Lodge of the Ancient Order of United Workmen began to-day at Goden Gate Hall with 100 delegates present. Addresses of welcome on behalf of the city were delivered by Supervisor James and by Past Supreme Master Jordon for the Committee of Arrangements and Grand Master Ward for State Workmen. Responses were made by Supreme Master Workman Shields, Supreme Recorder Asher and Supreme Overseer Riggs. The Lodge was then formally organized and the reports of officers received.

## Telegraph Notes.

Kansas Populists are holding their State Convention at Topeka. Virginia Republicans have decided to put no ticket in the field for Congressmen.

George P. Welmore, one of the richest men in Rhode Island, was elected United States Senator from that State yesterday.

It is rumored at Louisville that Col. Breckinridge will withdraw from the Congressional race in deference to the wishes of his friends.

President Cleveland's ailment has not yielded to treatment as expected and Dr. O'Reilly recommends that he keep as quiet as possible.

The American Railway Union met yesterday in Chicago with 450 delegates in attendance. It is believed the Union will boycott the Pullman Car Company.

George E. White of Round Valley, California, swore out a warrant for the arrest of Ben Woodman, a former partner of his, accusing Woodman of forcing him to sign checks to the amount of \$25,000.

Joseph Haile, Justice of the Peace at Vacaville, shot and killed George L. Parker, Deputy Sheriff. Haile heard that Parker had applied a vile epithet to his wife, and started to hunt for him. He found him in the Central Hotel, where he shot and killed him.

A mad dog created the most intense excitement in the streets of Dallas, Texas. He rushed through the principal streets, snapping at persons and animals. He was a powerful Newfoundland, and he tore a negro boy to pieces, terribly mangled three white women and bit several dogs. A policeman finally shot and killed the dog.

John Brown, aged 82, and wife, aged 74, were aroused from their slumbers at Bryan, Ohio, and told that a neighbor had broken his buggy and needed a lantern. The lantern was lighted, and as Mrs. Brown opened the door she was met by two masked men, who demanded her money. She gave them her pocket book, after which they followed the old man to his sleeping room and clubbed him until he was almost dead.

## Social Ceremonies.

## On Monday evening at the Bishop's School for Girls a novel feature of the closing of the term was given under the auspices of the graduating class.

At the hour named the pupils marched out in white robes and bearing torches; these were followed by the graduates robed in black. The utmost solemnity was observed and to the music of a funeral chant the procession moved towards a funeral pyre already prepared for the torch. On a bier carried in the midst of the procession were a lot of the school books of the graduating class. These were carefully laid on the pyre, with appropriate ceremonies and an oration was delivered by one of the graduates. The torch was applied to the pyre, and as the flames shot upwards, the mystic signs and ceremonies, the dress, music and all, gave a weird appearance to the scene. On the pyre were placed programs were handed to the guests. These were white, with mourning edges and tied with a black ribbon. The head of the program read, "Crematio Geometrum" and the balance was written in Latin. The feature is an old college custom and in some cases is called the "Burning of Euclid." The ceremonies are usually carried out on the campus, and during the gravest part of it the Juniors break in on the services and a general row occurs, and Euclid is rescued. Such a program would hardly be proper in a young ladies seminary, so this part was omitted. It was very nicely conducted, however, and will likely be copied after and elaborated on by our other schools.

## See the World's Fair for Fifteen Cents.

Upon receipt of your address, and fifteen cents in postage stamps, we will mail you prepaid our SOUVENIR PORTFOLIO OF THE WORLD'S COLUMBIAN EXPOSITION, the regular price is fifty cents but as we want you to have one, we make the price nominal. ## For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhea, regulates the Stomach and Bowels, cures Wind Colic, softens the gums, reduces inflammation and gives Tone and Energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup." aug24-ly

Mrs. Charles E. Longley of Providence, Rhode Island, has had her life insured for \$100,000. This is the first time a woman has been insured for that amount.

## When Baby was Sick, I gave her Castoria.

When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

## BORN.

SMITH—In Reno, Nev., June 10, 1894, to the wife of Geo. J. Smith, a son.

## A Gentleman

Who formerly resided in Connecticut, but who now resides in Honolulu, writes: "For 20 years past, my wife and I have used Ayer's Hair Vigor, and we attribute to it the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair has retained its color and fullness, we reply, 'By the use of Ayer's Hair Vigor—nothing else.'" "In 1868, my affianced was nearly bald, and the hair kept falling out every day. I used Ayer's Hair Vigor, and very soon, it not only checked any further loss of hair, but produced an entirely new growth, which has remained luxuriant and glossy to this day. I can recommend this preparation to all in need of a genuine hair-restorer. It is all that it is claimed to be."—Antonio Alarun, Bastrop, Tex.

**AYER'S HAIR VIGOR**

## KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

## PROBATE NOTICE.

In the District Court of the State of Nevada, in and for the county of Washoe. In the matter of the estate of John Ghiglietti, deceased.—Mary Ghiglietti, executrix, and Gasparo Ghiglietti, executor, having filed their petition heretofore verified, praying for an order of sale of the whole of the estate of said deceased, for the purpose therein set forth. It is therefore ordered by the Court that all persons interested in the estate of said deceased appear before the said District Court on the 15th day of July, A. D. 1894, at 10 o'clock in the forenoon of said day, at the court-room of said Court, in Reno, Washoe county, Nevada, to show cause why an order should not be granted to the said executrix and executor to sell the whole of the real estate of said deceased at private or public sale, and that a copy of this order be published at least four successive weeks in the *DAILY NEVADA STATE JOURNAL*, a newspaper printed and published in said town and county. A. E. GIBNEY, District Judge.

Dated at Reno, Nevada, June 12, 1894. 4w
